There are no easy answers, but to recognize the complexity and paradoxical
nature of the institution we call the law is crucial to operating successfully within it. Understanding the competing rhetoric used by those engaged in the legal process can help guide our decision-making, whether it is in deciding who to elect to create laws in our best interest or in determining our own courses of action in promoting causes we believe in, causes which most likely will involve legal issues and actions somewhere along the process. 032188194X / 9780321881946 Writing Process, The, with NEW MyCompLab -- Access Card Package Package consists of: 0205210090 / 9780205210091 Writing Process, The 020589190X / 9780205891900 NEW MyCompLab - Valuepack Access Card

The Essential Hyland-Ken Hyland 2018-01-25 Writing in the academy has assumed huge importance in recent years as countless students and academics around the world must now gain fluency in the conventions of academic writing in English to understand their disciplines, to establish their careers or to successfully navigate their learning. Professor Ken Hyland has been a contributor to the literature on this topic for over 20 years, with 26 books and over 200 chapters and articles. This work has had considerable influence in shaping the direction of the field and generating papers and PhD theses from researchers around the world. This is a topic which has found its time, as a central concept in applied linguistics, sociology of science, library studies, bibliometrics, and so on. This book brings together Ken Hyland's most influential and cited papers. These are organised thematically to provide both an introduction to the study of academic discourse and an overview of his contribution to the understanding of how academics construct themselves, their disciplines and knowledge through written texts. Several academic celebrities from the field provide a brief commentary on the papers and the book includes an overall reflection by the author on the impact of the papers and the direction of the field together with linear notes on the specific papers in each section. The volume not only includes some of Hyland's best chapters and journal articles but the thoughts of disciplinary luminaries on both the ideas in the book and the general state and direction of the field.

Speaking of Writing: A Brief Rhetoric-Allegra Goodman 2019-08-08 Can a writing textbook inform and entertain? Can a very brief rhetoric also function as a stand-alone guide to college writing? Yes and yes. Speaking of Writing is a concise yet comprehensive rhetoric with readings. Informed by scholarship in Writing Studies, this book follows four college students from diverse backgrounds as they face the challenges of reading, writing, and critical thinking in first-year writing and across the disciplines. Each chapter engages students in relatable, often humorous scenarios that focus on key challenges. Through its story-based approach, Speaking of Writing enacts student-centered and process-based pedagogy, showing students learning to address fundamental questions: How can I apply my own strategies for success to new assignments? How can I maintain my own voice when asked to compose in an academic style? What do college professors mean by a “thesis,” and how is this different from what my high-school teachers meant? Why is this argument weak, and how can I make it stronger? The book’s narrative vividly dramatizes a draft-and-revision process that includes instructor feedback, peer review, and careful research.

Writing Arguments- John D. Ramage 2016-07-23 "For courses in Argument and Research." "This version of Writing Arguments: A Rhetoric with Readings, Concise has been updated the reflect the 8th edition of the MLA Handbook (April 2016) ""Teach students to read arguments critically and to produce effective arguments Writing Arguments: A Rhetoric with Readings, Concise Edition, Seventh Edition integrates four different approaches to argument: the enthymeme as a logical structure, the classical concepts of logos, pathos, and ethos, the Toulmin system, and stasis theory. Focusing on argument as dialogue in search of solutions instead of a pro-con debate with winners and losers, it is consistently praised for teaching the critical-thinking skills needed for writing arguments. Major assignment chapters each focus on one or two classical stases (e.g, definition, resemblance, causal, evaluation, and policy). Each concept is immediately reinforced with discussion prompts, and each chapter ends with multiple comprehensive writing assignments. This concise version contains all of chapters in the
Brief Edition, but excludes some sections and exercises to increase savings. Also available in a Comprehensive version (032190673X) and a Brief version (0321964276). ""The 8th edition introduces sweeping changes to the philosophy and details of MLA works cited entries. Responding to the increasing mobility of texts, MLA now encourages writers to focus on the process of crafting the citation, beginning with the same questions for any source. These changes, then, align with current best practices in the teaching of writing which privilege inquiry and critical thinking over rote recall and rule-following.""

The Office of Assertion - Scott F Crider 2014-05-06 A frivolous argument or inflated claim is often dismissed with the reply, "That's just rhetoric!" But as Scott Crider explains in The Office of Assertion, the classical tradition of rhetoric is both a productive and a liberal art. The ability to employ rhetoric successfully can enable the student, as an effective communicator, to reflect qualities of soul through argument. In that sense, rhetoric is much more than a technical skill. Crider addresses the intelligent university student with respect and humor. This short but serious book is informed by both the ancient rhetorical tradition and recent discoveries concerning the writing process. Though practical, it is not simply a “how-to” manual; though philosophical, it never loses sight of writing itself. Crider combines practical guidance about how to improve an academic essay with reflection on the final purposes—educational, political, and philosophical—of such improvement.

Toward an Inclusive Creative Writing - Janelle Adsit 2017-10-05 The creative writing workshop has existed since the early part of the 20th century, but does it adequately serve the students who come to it today? While the workshop is often thought of as a form of student-centered pedagogy, it turns out that workshop conversations serve to marginalize a range of aesthetic orientations and the cultural histories to which they belong. Given the shifting demographics of higher education, it is time to re-evaluate the creative writing curriculum and move literary writing pedagogy toward a more inclusive, equitable model. Toward an Inclusive Creative Writing makes the argument that creative writing stands upon problematic assumptions about what counts as valid artistic production, and these implicit beliefs result in exclusionary pedagogical practices. To counter this tendency of creative writing, this book proposes a revised curriculum that rests upon 12 threshold concepts that can serve to transform the teaching of literary writing craft. The book also has a companion website www.criticalcreativewriting.org offering supplemental materials such as lesson plans and course materials.
