Critical Reading and Writing for Postgraduates-Mike Wallace 2006-04-20 'A systematic, coherent approach to developing critical reading and writing skills that are applicable to a range of different levels of analysis and types of reading and writing tasks. The authors are to be commended for the clarity of their writing and the way they scaffolded advice and tasks are integrated into the text. The book could form the core text for a course on critical reading and writing and a useful reference tool for the academic recently entered upon writing for publication.' - Educate Journal 'A very clear, accessible introduction that will be invaluable to postgraduate students trying to engage with reading and writing in a critical way' - R.M. Lee, Professor of Social Research Methods, Royal Holloway University of London This guide to critical reading and self-critical writing is a 'must-have' resource for postgraduate students and early-career academics. Packed with tools for analysing texts and structuring critical reviews, and incorporating exercises and worked examples drawn from the social sciences, the book offers step-by-step advice on how to: 'read any text critically and analyse it in the depth appropriate to one's project' 'develop a self-critical approach to one's own academic writing' 'ask questions in order to evaluate authors' arguments' 'keep a review manageable by using focused review questions' 'structure a comparative review of multiple texts' 'build up a convincing argument' 'integrate critical literature reviews into a dissertation or thesis' 'make the transition from postgraduate to professional academic writer' Essential reading for novice researchers, the book will also be invaluable for supervisors, methods course tutors, and academic mentors who teach and support the development of critical reading and self-critical writing skills.

The Critical Review: Or, Annals of Literature-Tobias Smollett 1817

Assessment of Language Disorders in Children-Rebecca J. McCauley 2013-03-07 This book constitutes a clear, comprehensive, up-to-date introduction to the basic principles of psychological and educational assessment that underlie effective clinical decisions about childhood language disorders. Rebecca McCauley describes specific commonly used tools, as well as general approaches ranging from traditional standardized norm-referenced testing to more recent ones, such as dynamic and qualitative assessment. Highlighting special considerations in testing and exploratory patterns of language, she reviews the challenges presented by children with a variety of problems–specific language impairment, hearing loss, mental retardation, and autism spectrum disorders. Three extended case examples illustrate her discussion of each of these target groups. Her overarching theme is the crucial role of well-formed questions as fundamental guides to decision making, independent of approach. Each chapter features lists of key concepts and terms, study questions, and recommended readings. Tables throughout offer succinct summaries and aids to memory. Students, their instructors, and speech-language pathologists continuing their professional education will all welcome this invaluable new resource. Distinctive features include: A comprehensive consideration of both psychometric and descriptive approaches to the characterization of children's language A detailed discussion of background issues important in the language assessment of the major groups of children with language impairment Timely information on assessment of change--a topic frequently not covered in other texts Extensive guidance on how to evaluate individual norm-referenced measures for adoption An extensive appendix listing about 50 measures used to assess language in children A test review guide that can be reproduced for use by readers.

Lexicography in the 21st Century - Sandro Nielsen 2009-08-19 This is a state-of-the-art volume on lexicography at the beginning of the 21st century. It also offers proposals for future theoretical and practical work. The contributions, inspired by the ground-breaking work of Henning Bergenholtz, address topics such as dictionary functions; dictionary users; access routes; dictionary structures; dictionary reviewing; subject-field classifications; data retrieval; corpus lexicography; and collocations and phrasology. The contributors, all highly regarded international scholars in the field of lexicography, show how the theory of lexicographical functions can extend the forefront of the discipline by focusing on dictionary functions and how these meet the needs of users in various types of user situations. Thereby echoing Bergenholtz’s idea that a dictionary is a tool that can help users solve problems encountered in communicative, cognitive and operatory situations. This volume is not only of interest to practical and theoretical lexicographers but to anyone interested in lexicography.

Picturing Canada - Gail Edwards 2014-07-31 The study of children's illustrated books is located within the broad histories of print culture, publishing, the book trade, and concepts of childhood. This book is the first fully interdisciplinary history. Picturing Canada provides a critical understanding of the changing geographical, historical, and cultural aspects of Canadian identity, as seen through the lens of children's publishing over two centuries. Gail Edwards and Judith Saltman illuminate the connection between children's publishing and Canadian nationalism, analyse the gendered history of children's librarianship, identify changes in narrative traditions and artistic styles, and explore recent changes in the creation and consumption of children's illustrated books. Over 130 interviews with Canadian authors, illustrators, editors, librarians, booksellers, critics, and other contributors to Canadian children's book publishing, document the experiences of those who worked in the industry, and present a wholly original work. Picturing Canada is fundamental to our understanding of publishing history and the history of childhood itself in Canada.
